Conway School Board Report January 9, 2023

NH Department of Education Monitoring Report:

In November, MWVCTC underwent the annual monitoring process of the Center. Monitoring serves two purposes: fulfilling the monitoring requirement in the Strengthening Career and Technical Education for the 21st Century Act (federal level), and verifying the operations of the center are in accordance with RSA 188-E, applicable rules (state level), and the Region Agreement (local level). Attached is the final report with findings and corrective actions that will be taken over the next few months as recommended.

CADD (Joe Riddensdale):

In December, the parents/guardians of students enrolled in CADD and Engineering classes were invited to a Christmas “work” party hosted by the students. They taught their parents how to use the 3D software and design a Christmas ornament to be printed in one of our 3D printers. Approximately 25 parents/guardians attended and had a terrific time being instructed by their children. Refreshments were served and the evening was an overwhelming success. This is a model the Center hopes to build upon in the future.
